WORK HISTORY

Mar. 2016 - April 2017

RUSSELL MEDIA US– MUNCIE, INDIANA
Full Stack Developer

- At Russell Media developing for the web was the most common task given. Typically using a LAMP stack and heavily manipulating WordPress and developing on the back end. A lot of jQuery, PHP, and MySQL was used while working at Russell Media and the work environment was amazing!

JUNE 2016

ELEVEN FIFTY ACADEMY – CARMEL, INDIANA
STUDENT

- Eleven Fifty Academy, a nonprofit coding academy, strives to bring the most relevant coursework to the students. Students such as myself are continuously learning in an immersive environment and building our portfolios with the many programming instructors that work with us on a daily basis. We perfect our coding skills through difference courses such as Agile, UI/UX, Texting, Deployment, the language courses, and more. We're not only learning through coursework, but through projects and team exercises to challenge us every day. We learn how to code as well as how to work with our clients and how to properly present ourselves in the professional world.

AUG. 2015 – DEC. 2017

IUVOLINK – MUNCIE, INDIANA
Co-founder & Web Developer

- At iuvoLink we provided comprehensive marketing campaigns for business small and large! Implementing web strategies and IT frameworks for businesses. Offering full IOS and Android implementation into their company for different solutions. Upgrading hardware and software where needed.

2015

DAIRY QUEEN – INDIANAPOLIS, INDIANA
Assistant Manager

- Managed a team of 5 and worked hard to make sure our team was
set up for success during lunch time rushes and dinner rushes. Also helped any customers that needed customer service as soon
as possible. It was a great experience for learning about entry level management positions.

EDUCATION

AUG. 2015 – MAY 2019   **BALL STATE UNIVERSITY**
BS in Computer Science

- o Classes taken thus far:
    - CS-120: Computer Science 1
    - CS-121: Computer Science 2
    - CS-124: Discrete Structures
    - CS-222: Advanced Programming
    - CS-224: Design and Analysis of Algorithms
    - CS-230: Computer Organization and Architecture
    - CS-239: Social and Professional Issues
    - CS 327: Distributed Processing and Networks
    - CS 346: Database Design
    - CS 380: Theory of Computation
- o Studying at Ball State has been one of the best decisions of my life! It has allowed me to get to know a lot of my peers and develop with them! Anything from developing for iOS or Android to PHP and Java. It's been a great experience!
